An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy B. Clise on 2/16/07.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 4-6, 10-12 directed to non-elected species. During the telephone conversation with Attorney, Timothy B. Clise, applicant's representative cancels claims 4-6, 10-12. Accordingly, claims 4-6, 10-12 have been cancelled.

In claim 25, lines 6, after "oxide layer;" please inserts "oxidizing the layer of a material with rapid thermal processing (RTP).

The following is an examiner's statement of reasons for allowance:

Claims 1-3, 7-9, 13-41 are allowed because none of the prior art alone or in combination teaches or suggests the particular subset of the process steps in forming a coupling dielectric in a memory cell with by oxidizing the Ta₂O₅ with rapid thermal process, forming an cell nitride on the oxidized Ta₂O₅, and forming a wetgate oxide on the cell nitride.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
